

Well folks, the third quarter of 2006 is history and things are busy in Plain City.

We started out the quarter with our 4<sup>th</sup> of July celebration. From the looks of the crowds, most of us were there. It was a great crowd and Jake Weston did a fantastic job as the Chairman. I have to mention Judd Cook who with the help of his father George, did a fantastic job with our Plain City Car Show. There were more entries than ever this year and it was lots of fun to see what is right here in our community in many cases. Bruce Higley was the councilman over the festivities and we thank him and his committee.

We were able to fill our empty spot on the council with Don Weston who has quite a bit of experience here in town. We thank him for applying and look forward to the many contributions we know he will make.

Our addition to the fire station is moving ahead full speed. We are looking forward to a late fall or early winter completion. So far it is progressing as to plan.

Our recreation football program is well under way. We have a smaller group this year as West Haven has started their own chapter of the WFFL and will now handle part of our old territory. We wish them well and will see them in the playoffs. Girls basketball is next and we are excited as the initial inquiries have been heavy.

Our update process for our General Plan is moving along according to plan. We have finished to portion where we received valuable input from a citizens committee and it is now being put together for presentation to the Planning Commission. The next step will be for passage of a complete plan and then forwarding it on the City Council for our consideration. Again we would like to thank all of those people who have spent many hours in putting this together.

We are still waiting for some final engineering glitches before we bid the 2<sup>nd</sup> phase of our 5100 west sewer project. We hope to get that going now that all of the irrigation is finished and quickly get that done.

Last but not least is our efforts on our annexation project. We have run into some problems with some official protests and are dealing with them through the Weber County Boundary Commission. We have had some complaints from some citizens who live in the county but don't want to come into the city. It has been small but very loud. We hope to get this done before the end of November.

Thanks,  
Mayor Jay Jenkins
